### Mattress Pads.

For Cots, Cribs, and to be Used on Top of Full Size Mattresses.

Mattress Pads are made in ticking without a border, filled with gray wool, cotton or any soft filling, tufted about six inches apart, thus holding the filling in place. They finish about one inch thick.

A Pad used on top of a Mattress produces a smooth surface, and adds much to the comfort of the person using it.

## Pure Hair Mattresses.

**Full Imperial Stitched Edge Hair Mattress.**

Full Imperial Stitched Edge Hair Mattresses are made with four rows of stitching in the border and roll edge, closely tufted, giving a neat and more finished appearance than the old method. This style of a Mattress should be made of six-inch border and well filled. Five cents per pound additional over price of regular Hair Mattresses.

The finished weight of a full Imperial Hair Mattress should be for a 3-0 x 6-3, 35 pounds; 3-6 x 6-3, 40 pounds; 4-0 x 6-3, 45 pounds; 4-6 x 6-3, 50 pounds.

### Half Imperial Stitched Edge Hair Mattresses

Are made with roll edge and two rows of stitching in border. Makes a neat appearance. Three cents extra per pound.

### Usual Weight of Hair Mattresses For Regular Size, With 5-Inch Border.

2-6 x 6-3, 20 pounds; 3-0 x 6-3, 25 pounds; 3-6 x 6-3, 30 pounds; 4-0 x 6-3, 35 pounds; 4-6 x 6-3, 40 pounds.

Mattresses may be made same size as given above, but lighter weight, by reducing the border.

	F Grade, 20 x 38 " " 3 " " .....	10,	3 25

Other sizes and qualities of Hair Mattresses made to order.

## Renovated Mattresses.

We renovate all kinds of Mattresses, but it rarely pays the owner to have a mattress of a less quality than an all Cotton or all Hair renovated, as the time consumed in taking apart the old mattress will equal the good material found in it, and frequently exceed it; therefore, it will always be found profitable to purchase new material when of less value than Cotton. To renovate a Husk, Husk Cotton Top or Husk Hair Top will never pay. It is often wise economy to use the hair from the top of the old mattress, and add to it sufficient to make a new top or to make a full hair mattress.

We make any alterations to old Mattresses, Spring Beds, etc., at the lowest cost, and do good work, but in no case will we do any "patch up" or "hold over" work that might reflect on our now honestly earned reputation for doing good, honest work at fair prices.

## Ticks for Pillows, Mattresses, and Slip Covers.

Tick Nos.		1	8	7	5	6	4	10	11	12	13	14

### Wedge Shape Bolsters.

Husk Wedge Bolsters,	\$1 00
Cotton " "	2 00

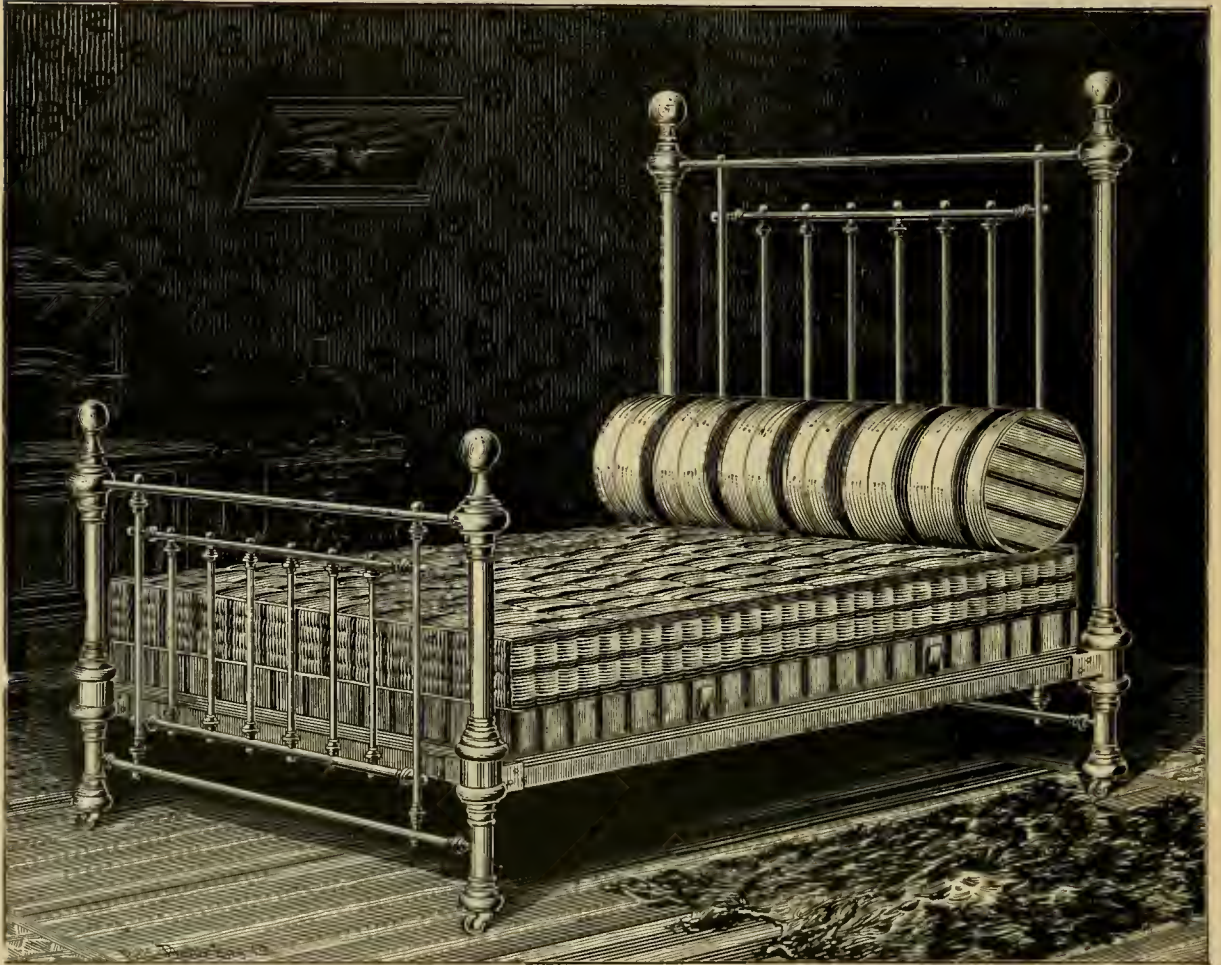

Hair Wedge Bolsters, same price per pound as same quality of Hair in Mattresses, page 9.

### The Buntrock Log Bolster.

The Buntrock Log Bolster is constructed of a specially designed spring, upholstered with a soft filling; covered with Ticking or Silicia. It is light and durable, and will keep its shape. Stock Sizes, 11 inches in diameter by 3 feet 6 inches and 4 feet 6 inches. Other sizes to order.

Price, in Ticking, \$2.25 each; Silicia, \$2.50 each.

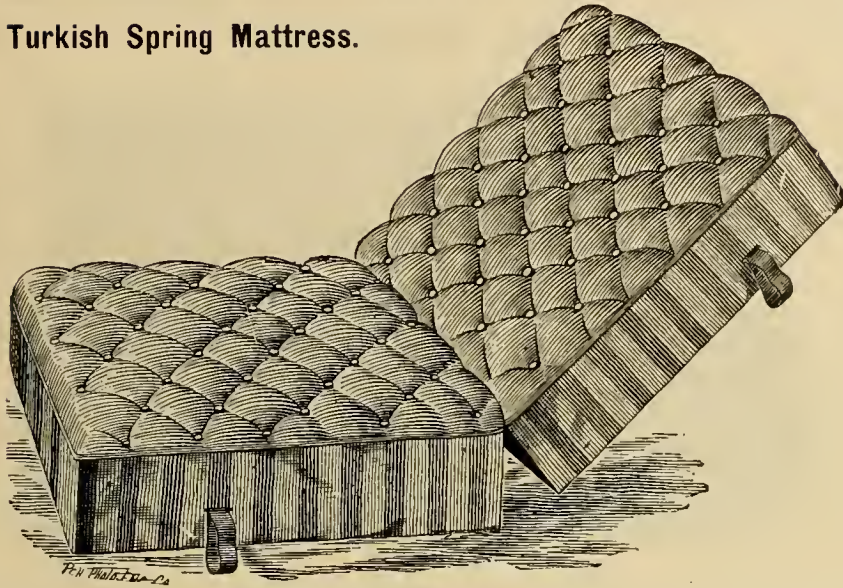

**Brass Bed with Rabbet Edge Spring, Hair Mattress and Log Bolster.**

The above illustrates a Brass Bedstead equipped with a Rabbet Edge Spring Bed and Hair Mattress, with Imperial Stitched Edge and Round Bolster, which vouches for its own neat appearance, and time with you will vouch for its comfort and durability. The Imperial Stitched Edge on Hair Mattresses for Iron or Brass Bedsteads adds to the appearance and durability of the Mattress. It makes a stronger edge and keeps its shape with use.

See Page 9.

## Turkish Spring Mattress.

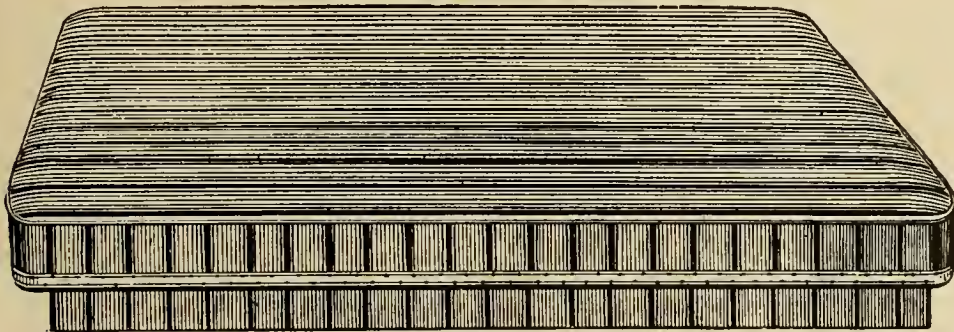

The Turkish Spring Mattress is made of one piece or folding, on a substantial wood frame. The springs used in this mattress are Japanned Tempered Steel, fastened to the slats with wire staples, and strongly tied in position with twine. The topping and ticking used, vary according to price. These mattresses are all made with spring edge. Our No. 1 grade has no equal as a durable and luxurious bed, the top being of the best hair, and the covering of the best grade of ticking.

These mattresses are all made to order, and any size can be furnished. The folding mattress, however, is the most convenient for handling and shipping. Made in four grades, numbers 1 2, 3, 4.

**FOR PRICE, SEE PAGE 83.**

## Rabbit Edge Spring Bed.

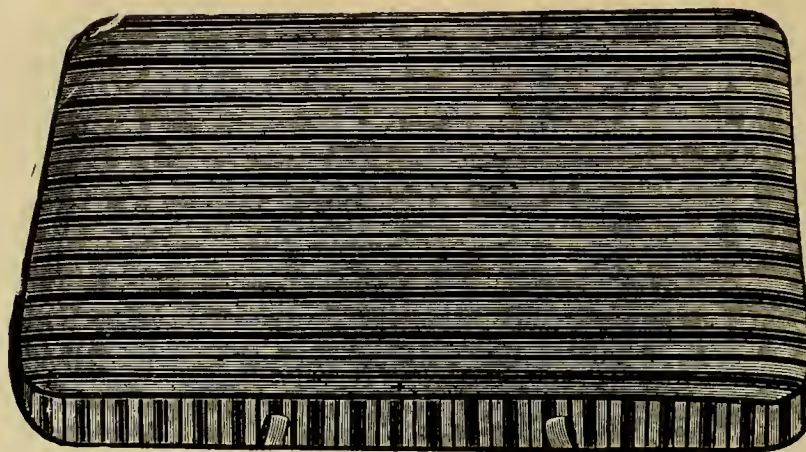

This Spring Bed is particularly adapted for Brass and Iron Bedsteads, having part of the Spring inside and beneath the side rails, the upper part, or resting surface, being flush with outer edge of side rails.

This Spring gives the full width of the bed, and permits the bed to be dressed in a square and handsome manner, not attained by the use of any other spring. In every respect it is a more complete and satisfactory spring than any other that can be used on a Brass or Iron Bedstead.

The internal construction and covering of this Bed is similar to the Plain Top Spring Bed. Any size of this bed can be had on short notice.

**For Price, See Page 83.**

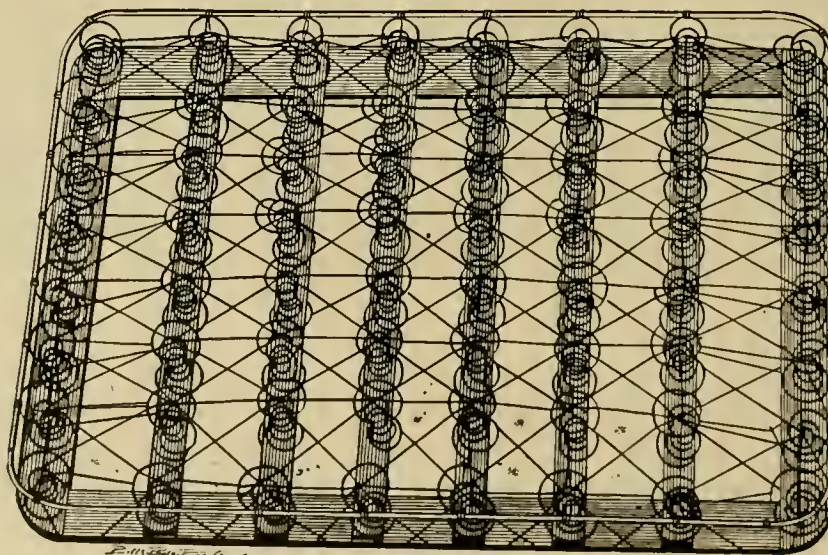

### Plain Top Spring Bed.

This bed is made on a strong wooden frame, with Spiral Steel Springs, securely fastened to the frame by staples, with a rattan edge all around, braced latterly with Grasshopper Springs, making a strong, but elastic, edge. The springs are tied lengthwise, crosswise and diagonally. Covered in Burlaps, with a fine Tow, Cotton or Hair Top. Any size of this bed can be had on short notice. It is suitable for both wooden or metal bedsteads.

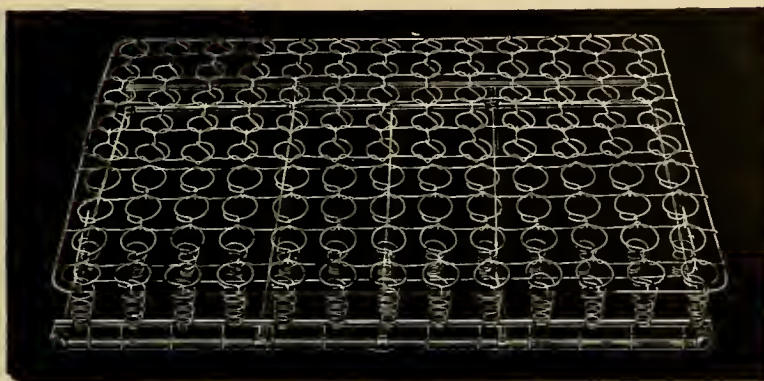

For Price, See Page 83.

### Interior Construction of Plain Top Spring Bed.

### Enterprise Spring Bed.

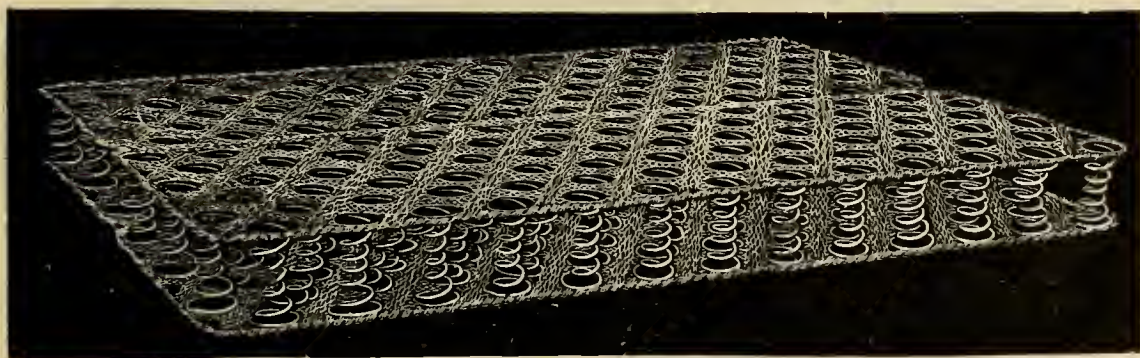

PATENT APPLIED FOR  
EXTRA HIGH GRADE.

This Bed Spring is designed especially for Iron Bedsteads ; no slats needed ; the metal bottom resting on and setting between the side rails, making the top only 4 inches higher than the side rails ; the top is full width of bedstead, making a Spring Edge equal to any Box Spring. Neat, Flexible and Durable. Made of best crucible steel and highly tempered.

For Price, See Page 83.

### Lace Web Spring Bed.

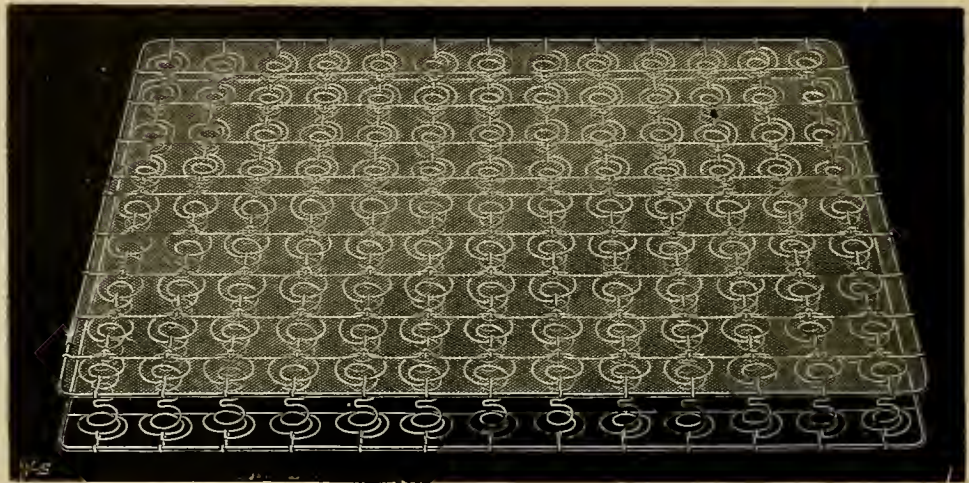

PATENTED AUGUST 12TH, 1884.

The Lace Web Spring is all metallic, constructed throughout of bright steel wire. The double conicle tinned springs are laced together by the wire, making a bright colored, light-weight spring, folding in the center, easy to handle, perfectly level surface, and one that continual use does not alter or change. This spring is made with an extension edge. so as to adapt it specially to Iron or Brass Bedsteads.

For Price, See Page 83.

### No. 61 Spring Bed.

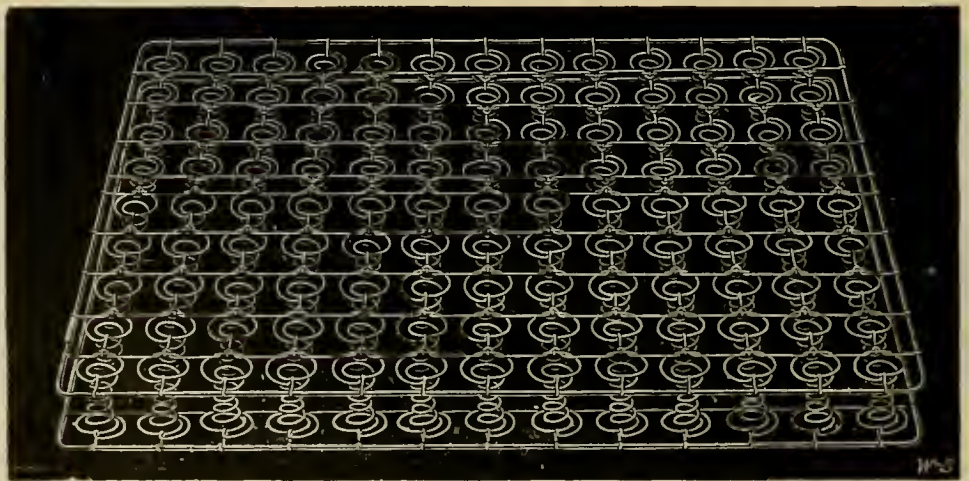

**FOLDING OR PLAIN.**

The No. 61 Spring Bed is made of Tempered Steel Spiral Springs, with a woven wire fabric top. It is all Japanned, and will not tarnish. The quality is right, and we can recommend it as first-class.

**For Price, See Page 83.**

### No. 17 Spring Bed.

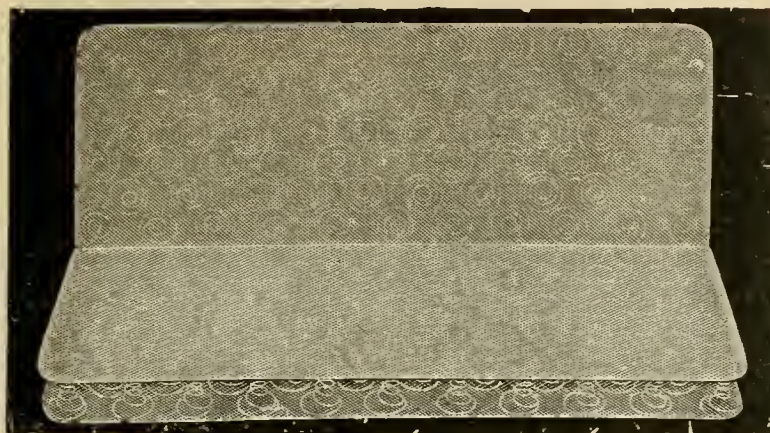

**FOLDING OR PLAIN.**

The No. 17 Spring Bed is made of Tempered Steel Spiral Springs. It is all Japanned, and will not tarnish. Is light, durable and elastic. In ordering you should be careful to state whether you want Plain or Folding Bed.

**For Price, See Page 83.**

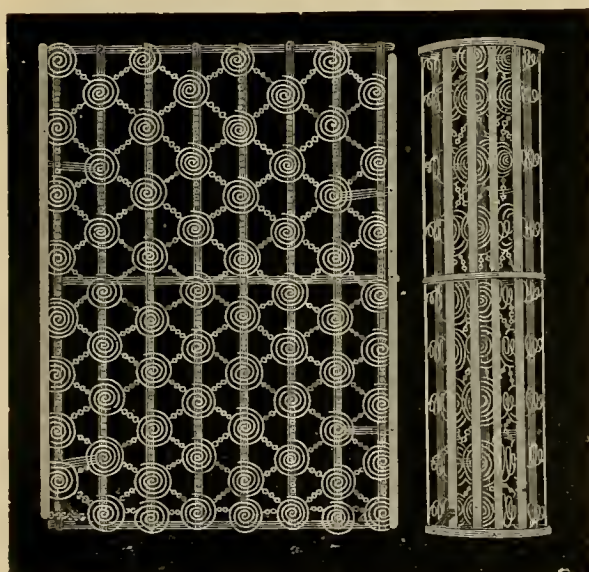

### No. 30 Spring Bed.

The No. 30 Spring Bed is an All-Metal Bed, with Steel Coppered Springs, with a bright woven wire fabric top and bottom, and folds in the center.

For Price, See Page 83.

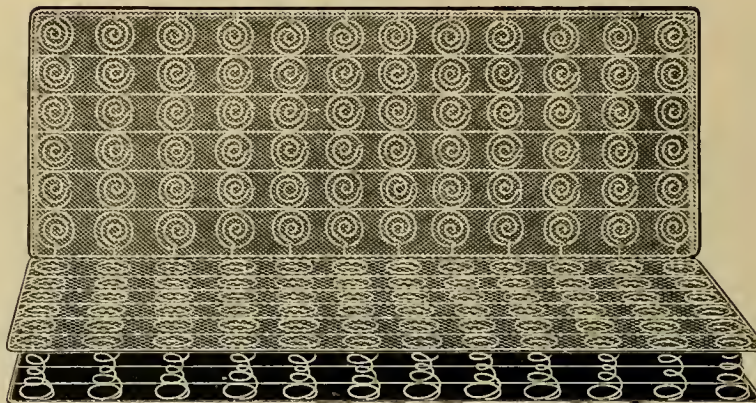

### Roll-Up Spring.

This bed is constructed of conical spiral steel springs, Japanned, riveted firmly to rolled iron slats. Tops connected with tinned iron chain, crossbands and braces of tempered steel.

Rolls compactly as shown in cut, and occupies little space for storage, is easily handled and makes a satisfactory spring.

For Price, See Page 83.

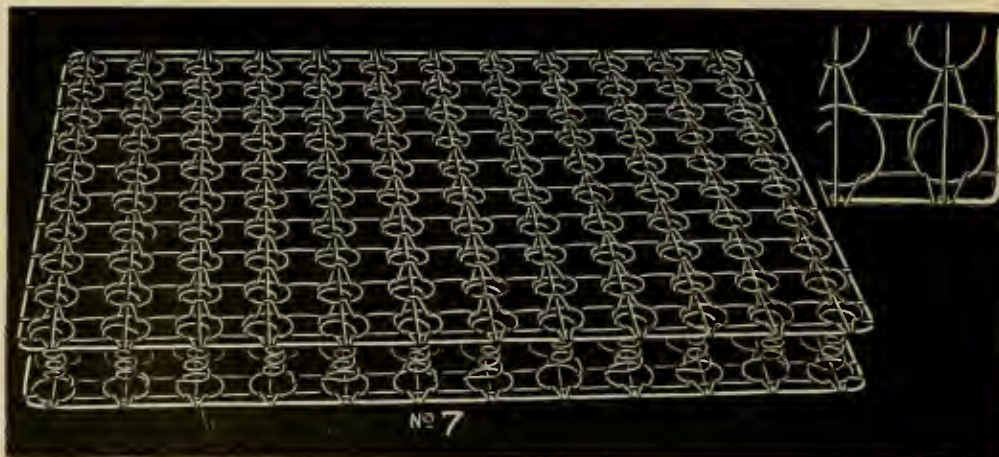

**No. 7a. Spring.**

The No. 7a Spring is made by adding a bright woven wire fabric top to the No. 7 Spring described below.

**For Price, See Page 83.**

Royal W. W.  
Spring Bed is  
an all metal  
Spring espe-  
cially adapted  
for Brass or  
Iron Bed-  
steads. Has a  
pencil weave  
fabric well  
corded

For Price,  
See Page 83.

**No. 7. Black Japanned Spiral Spring Bed.**

**Plain or Folded.**

The No. 7 Spiral Spring is made with an Interlocking Top and Bottom. With this construction the weight is distributed over the entire top and the spring retains its elasticity and normal shape. This fastening device makes this spring the best of Japanned Spiral Spring Beds on the market, and vastly superior to any spring sold at the same price.

**For Price, See Page 83.**

The Royal  
No. 2 is the  
same in con-  
struction as  
the Royal  
with the ad-  
dition of the  
No. 2 Cable  
Support.

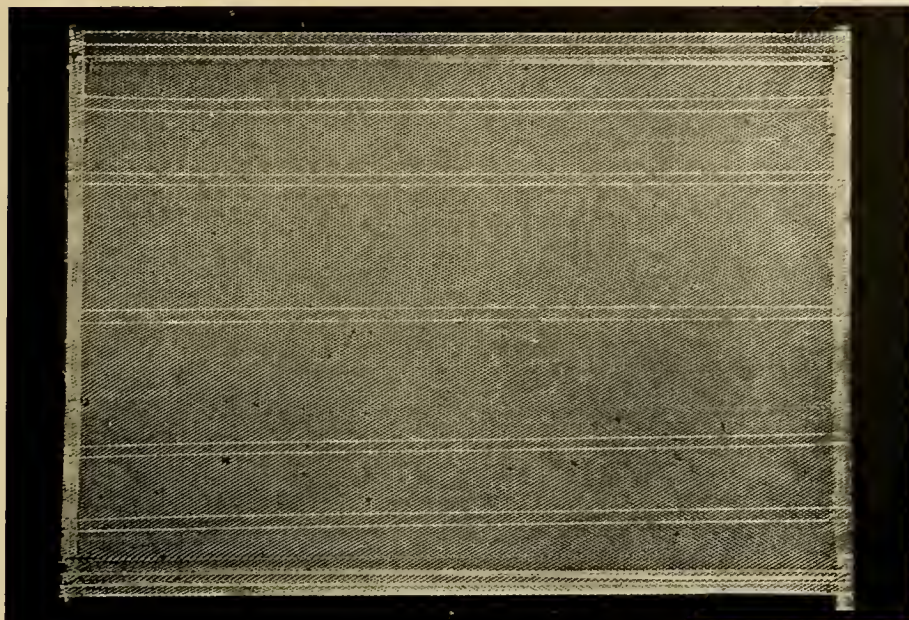

For Price,  
See Page 83.

### Royal Woven Wire Spring Bed.

Royal W. W. Spring Bed is an all metal Spring especially adapted for Brass or Iron Bedsteads. Has a pencil weave fabric well corded

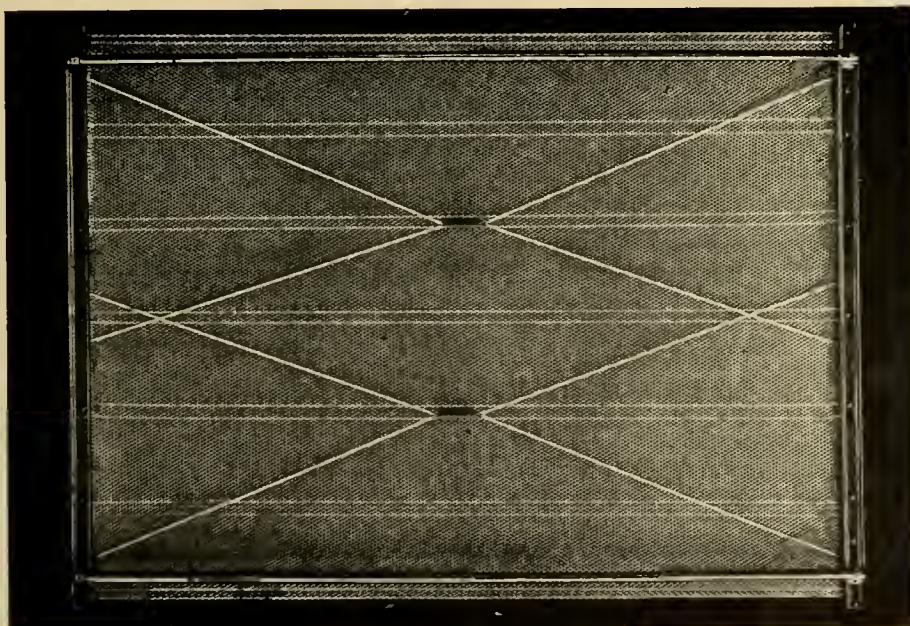

For Price,

For Price,  
See Page 83.

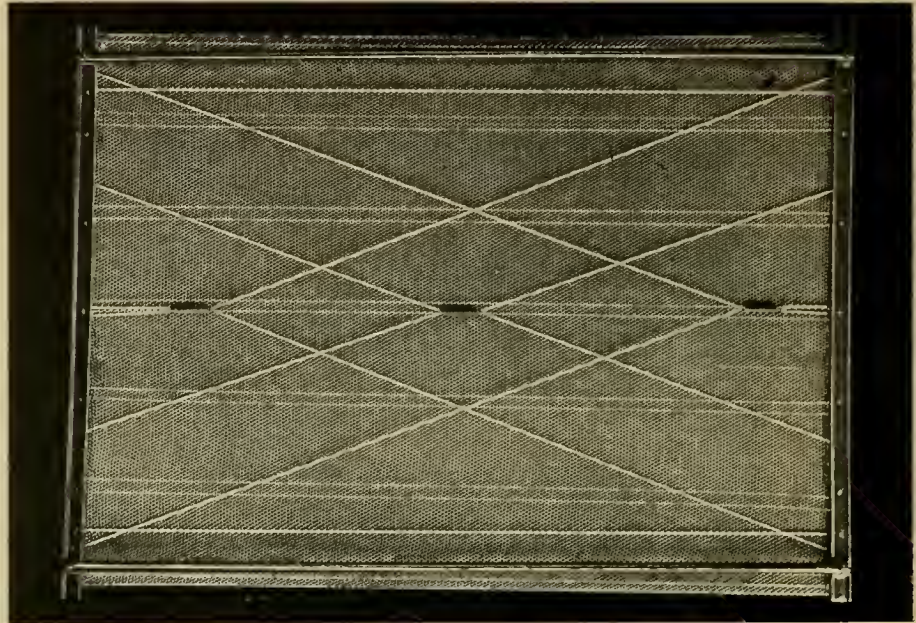

### Royal No. 3 Woven Wire Spring Bed.

Royal No. 3 is the same construction as Royal with the addition of the No. 3 Cable Support.

For Price,  
See Page 83.

### Royal No. 35 Woven Wire Spring Bed.

Royal No. 35 is the same construction as Royal with the addition of the No. 35 Spiral Support, attached to frame underneath fabric by helical springs.

For Price,  
See Page 83.

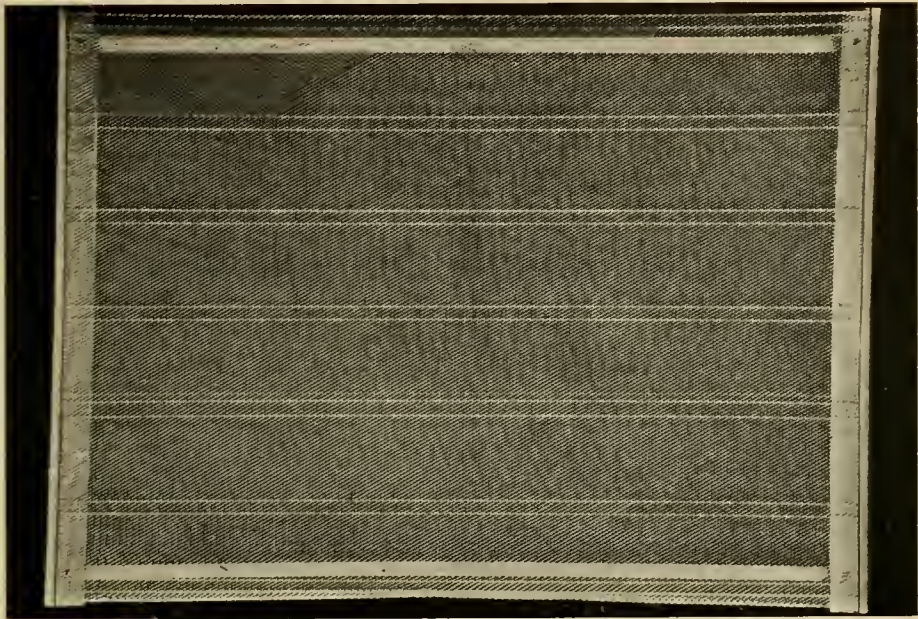

### Export Woven Wire Spring Bed.

The Export is made with a hard maple frame, varnished, with a pencil weave fabric corded.

For Price,  
See Page 83.

### Export No. 35 Woven Wire Spring Bed.

Export No. 35, Same as Export with the addition of No. 35 Spiral Support.

For Price,  
See Page 83.

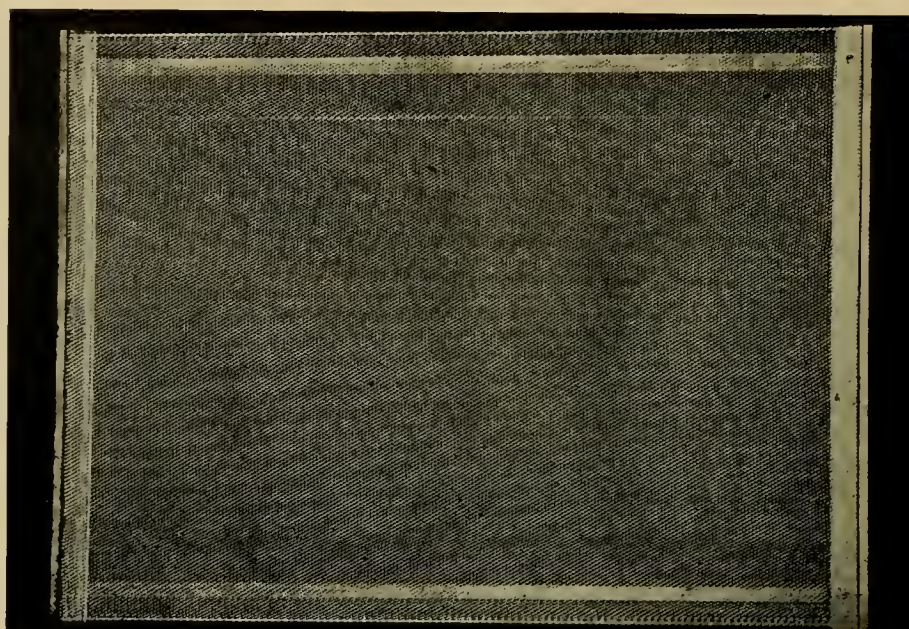

### Empress Woven Wire Spring Bed.

The Empress is constructed with a hard maple frame, varnished, with a single pencil weave fabric.

For Price,  
See Page 83.

### Empress No. 3 Woven Wire Spring Bed.

Empress No. 3, Same construction as Empress with the addition of the No. 3 Cable Support.

For Price,  
See Page 83.

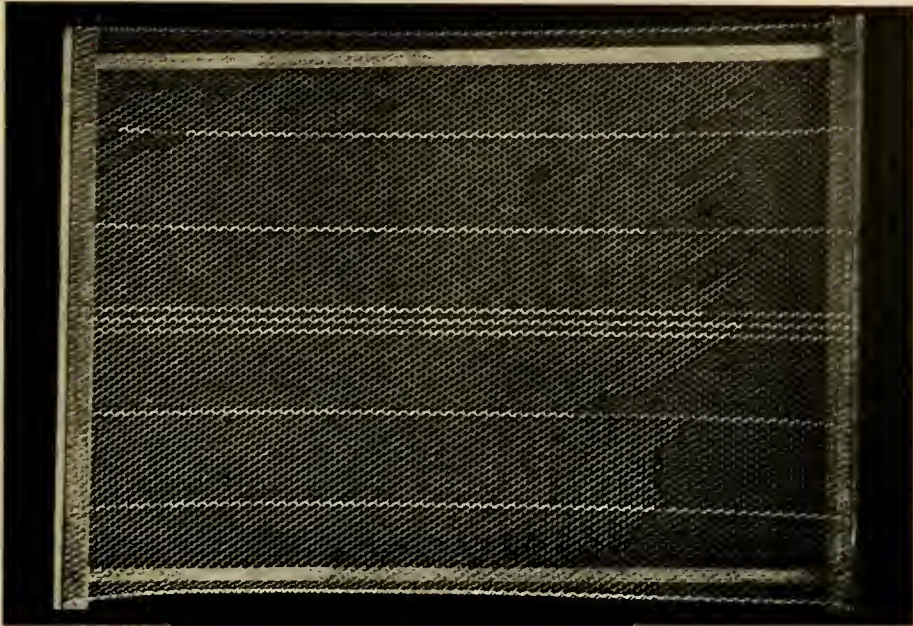

### Empire Woven Wire Spring Bed.

The Empire is made with a hard maple frame varnished, with a double weave fabric well corded.

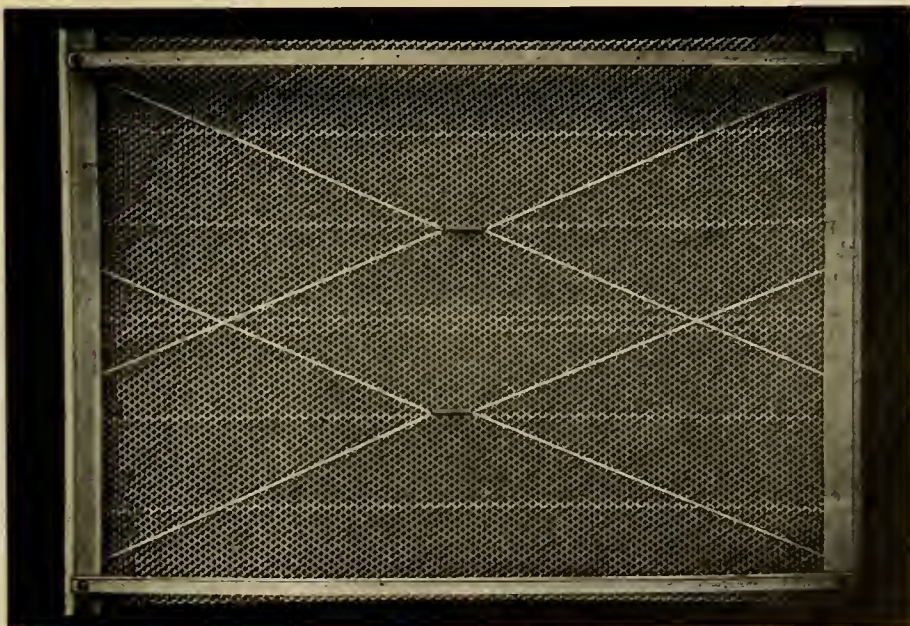

For Price,  
See Page 83.

### Empire No. 2 Woven Wire Spring Bed.

Empire No. 2 is same construction as Empire with the addition of No. 2 cable support.

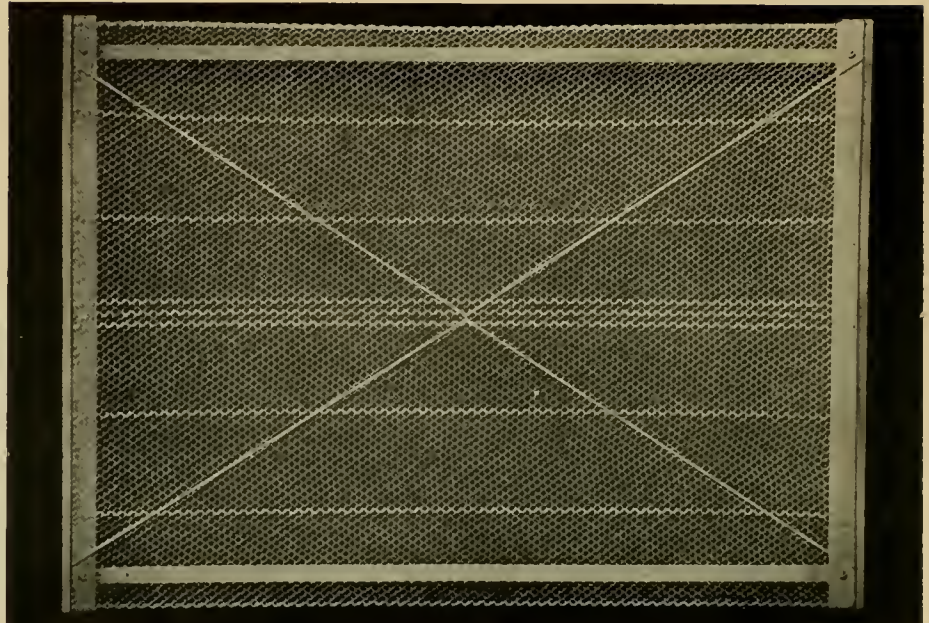

For Price,  
See Page 83.

### Etna No. 1 Woven Wire Spring Bed.

Etna No. 1 is made with a hard maple frame varnished, single weave fabric, and corded with a No. 1 cable support.

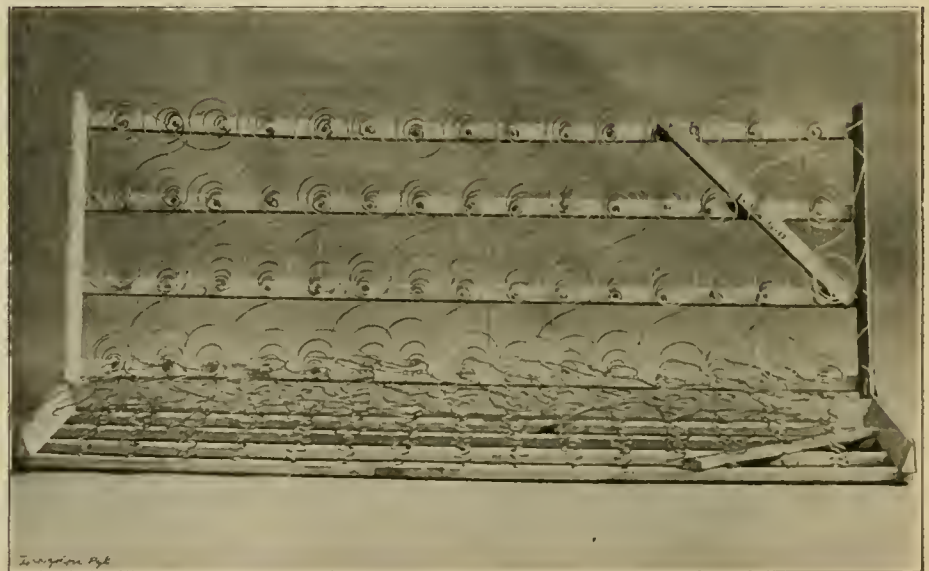

For Price,  
See Page 83.

### Interwoven Spiral Spring.

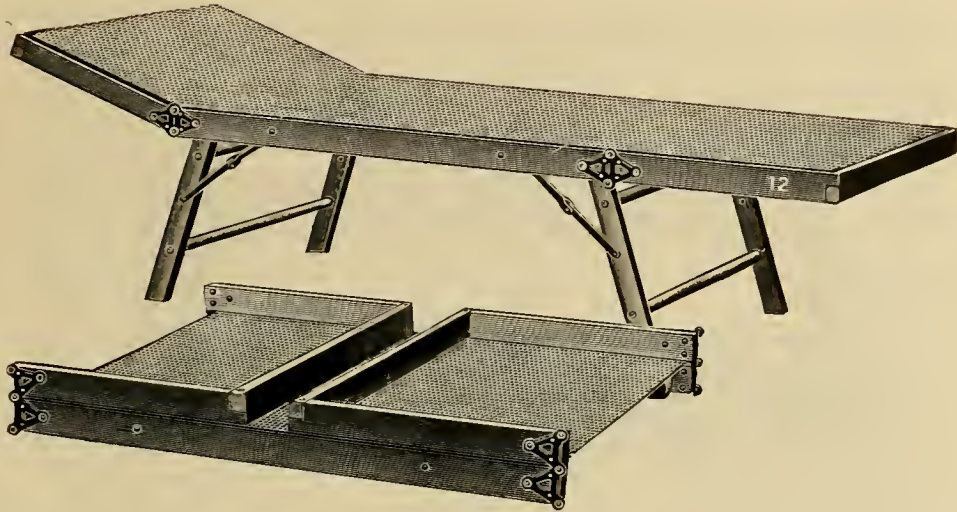

The Interwoven is made of twin spring interlocked so as to make a smooth surface for the mattress; no links or hooks.

For Price,  
See Page 83.

### No. 12 Woven Wire Folding Cot.

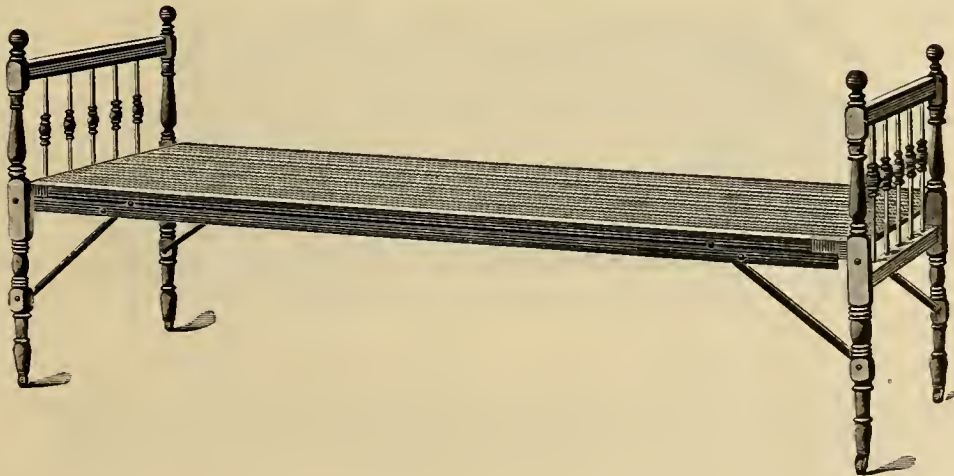

The No. 12 Cot is constructed with hard maple frame, covered with a double woven wire fabric running crosswise to permit of its folding easily, as shown in cut. Size, 2-6 x 6-0.

This Cot is also made with a heavy canvas top and is known as No. 13. Size, 2-6 x 6-0.

For Price, See Page 83.

### Darby Woven Wire Cot.

The Darby Folding Cot is made with a hard maple frame, varnished, with a pencil weave fabric, well corded. Sizes, 2-6 x 6-2 and 3-0 x 6-2.

For Price, See Page 83.

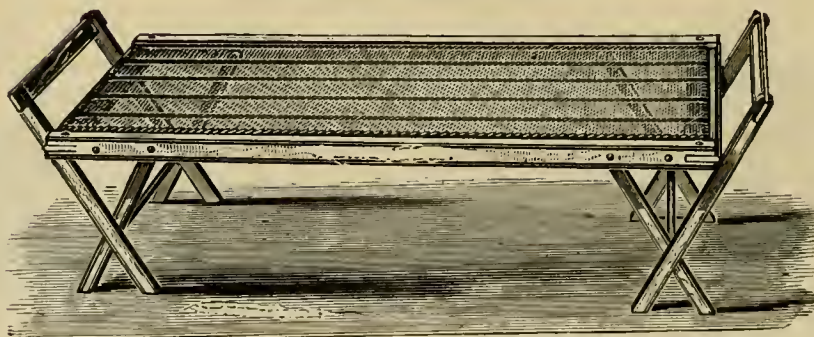

### Durable Woven Wire Cot.

Durable Cot is made with a hard maple frame, varnished, with a single pencil weave, fabric corded. Sizes, 2-6 x 6-2 and 3-0 x 6-2.

For Price, See Page 83.

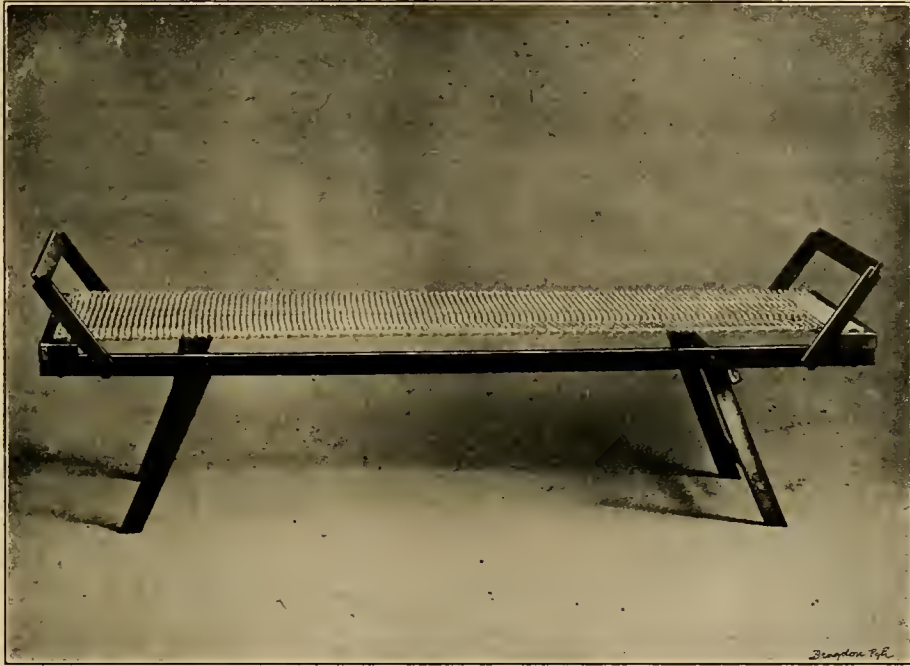

### "Universal" Woven Wire Cot.

The Universal Folding Cot is made of hard maple, finished natural wood, with a strong wire fabric attached. It is a very durable Cot. Sizes, 2-6 x 6-0 and 3-0 x 6-0.

For Price, See Page 83.

### Rome Woven Wire Cot.

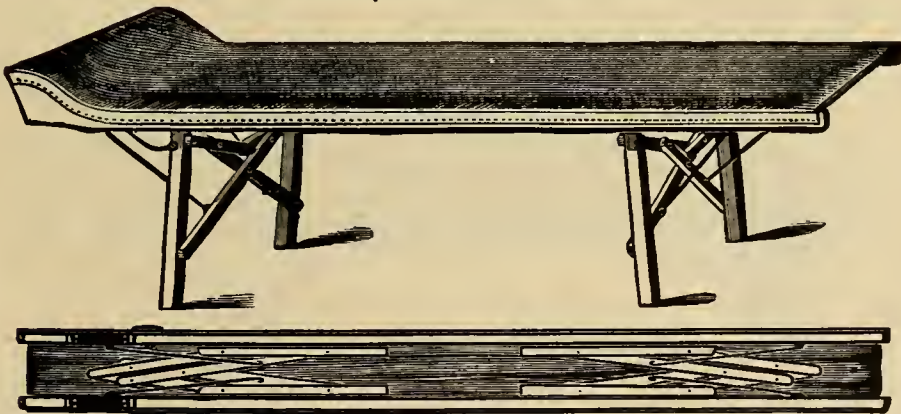

Rome Cot is made with a hard maple frame varnished, with a double weave fabric, legs fold flat between rails.

Size, 2-6 x 6-0 and 3-0 x 6-0.

For Price, See Page 83.

### Champion Canvas Cot.

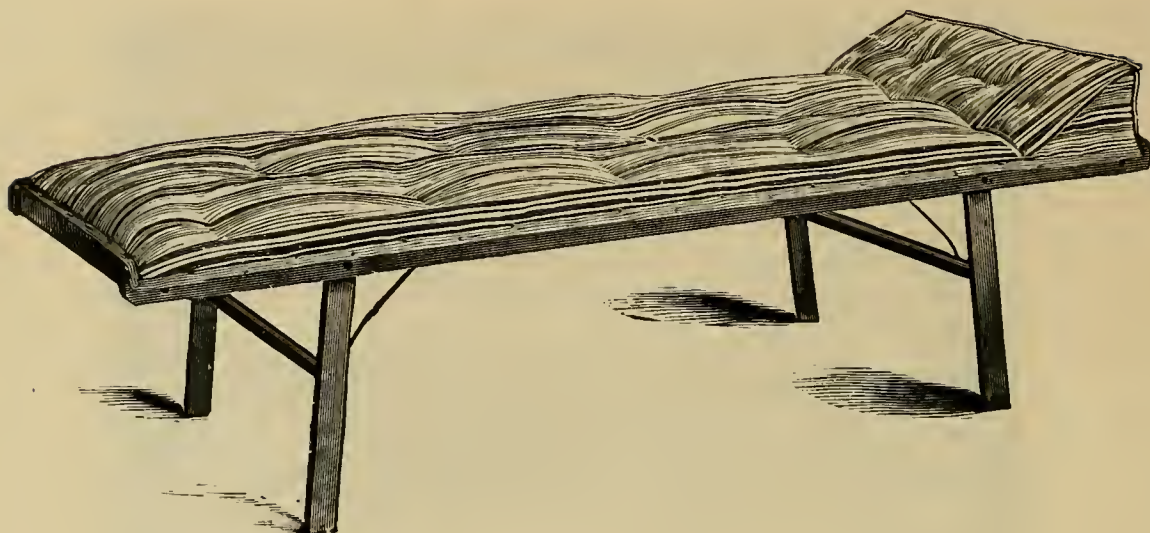

The Champion Canvas Cot is made with a strong maple frame covered with heavy white canvas, and folds very compactly.

Size, 2-3 x 6-0.

For Price, See Page 83.

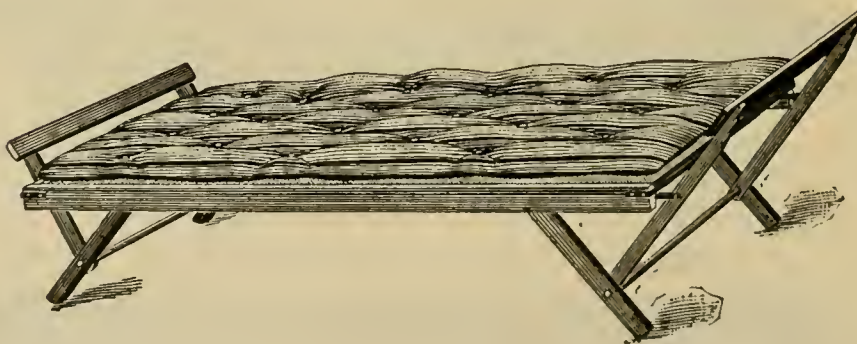

### No. 9 Upholstered Cot.

No. 9 Folding Upholstered Cot is made with a maple frame covered with canvas, well supported by cross stripes and upholstered with excelsior in fancy ticking, legs fold flat underneath.

For Price, See Page 83.

### "Hotel" Woven Wire Upholstered Cot.

The Hotel Cot is made by attaching a light mattress to the fabric of a woven wire Cot, thus making a cheap and convenient Cot. Sizes, 2-6 x 6-0, and 3-0 x 6-0. The mattresses are made of either excelsior, gray wool or cotton.

For Price, See Page 83.

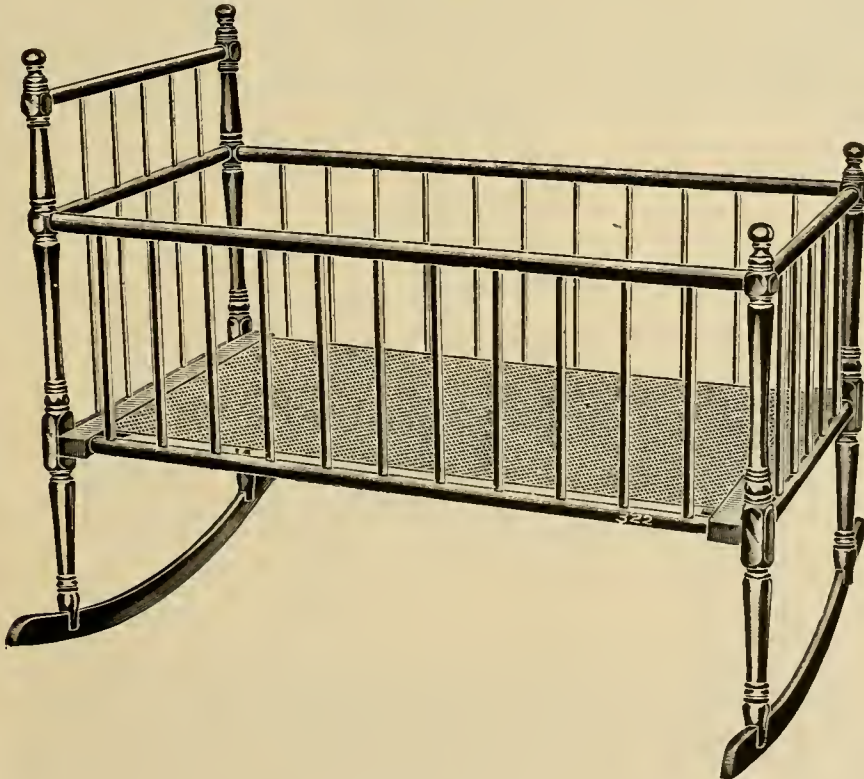

### No. 20 Drop Slats.

The No. 20 Drop Slat is constructed of Steel, in the style shown in the above cut. They are so arranged to attach to the side rail of a metal bed, and drop about three inches below the surface of the rail of the bed. It requires five slats to a bed.

For Price, See Page 83.

### Cradles.

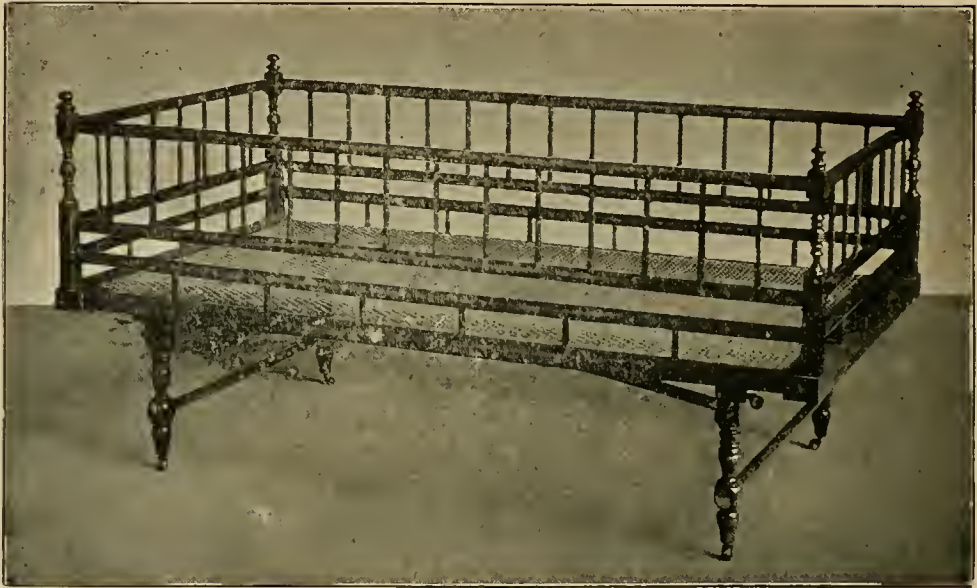

No. 322.

Size : 24 x 44—Shipping weight, 14 pounds. K. D.

A very pretty and substantial cradle at a low figure. Supplied with woven wire mattress and made of our selected white maple finished in natural wood. Light and strong. Quick sellers on price and quality.

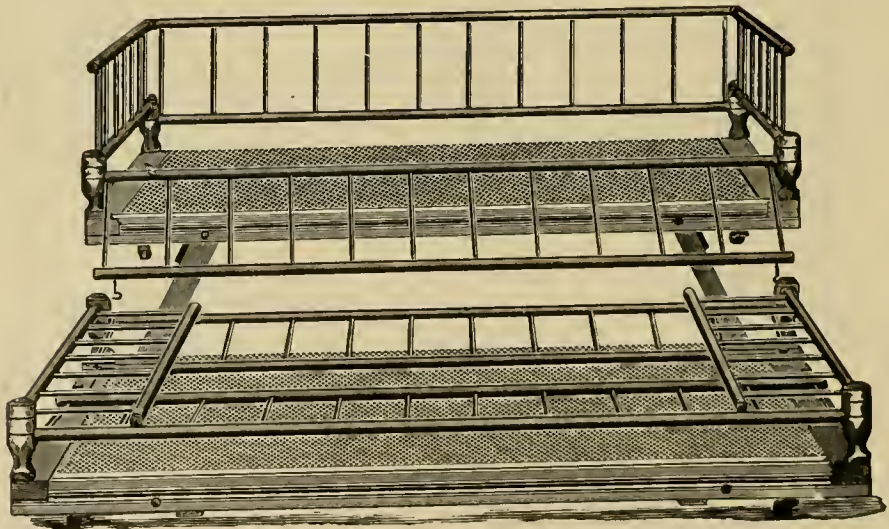

No. 324 same as No. 322, except with slat bottom.

For Price, See Page 84.

**No. 308. Child's Folding Crib.**

This Crib is made of hard maple, finished natural wood, with Woven Wire Spring attached, and folds so it can be easily run under any ordinary bedstead. Size, 36 x 60 inches.

For Price, See Page 84.

**Nos. 293 and 294 Folding Crib.**

This Crib is made of hard maple, finished natural wood. The sides and ends fold, and has a Woven Wire Spring attached, and, as shown in the cut, it can be folded without removing the bedding and will roll under any ordinary bedstead.

No. 293. 2-6 x 4-6.

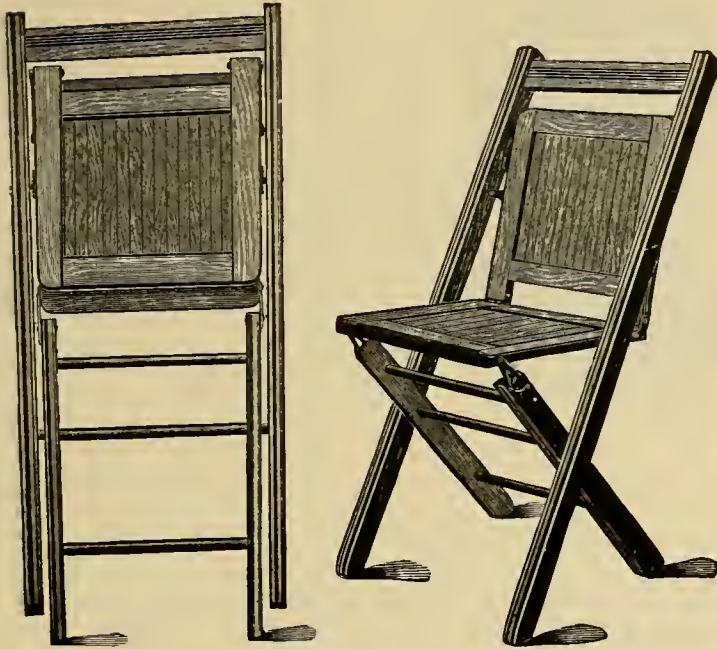

No. 294. 3-0 x 4-6.

For Price, See Page 84.

## FOLDING CHAIRS.

No. 200.

No. 200 Chair has made for itself a widespread reputation. It is the *acme* of folding chair construction.

Made of hard maple and malleable iron. When folded is 1 1/2 inches thick. This folding chair has had phenomenal success, because of its strength and compactness. It is made of thoroughly seasoned, good stock, carefully finished with durable coach varnish, and locks when closed so that it will not open when being handled.

Thoroughly covered by American and foreign patents.

Shipping weight, per dozen, 120 lbs.

For Price, See Page 82.

## Opera Chairs.

No. 210.

The No. 210 Opera Chair for cheap seating for halls and opera houses is a very comfortable and desirable chair for this character of work, and ships in very compact shape.

Any furniture dealer who knows of a hall or opera house for which chairs are to be purchased should communicate with us. We will submit a sample and prices which will take the business.

For Price, See Page 82.

Seat Down.

Seat Up.

PATENT APPLIED FOR.

### The Rex Hospital Bed.

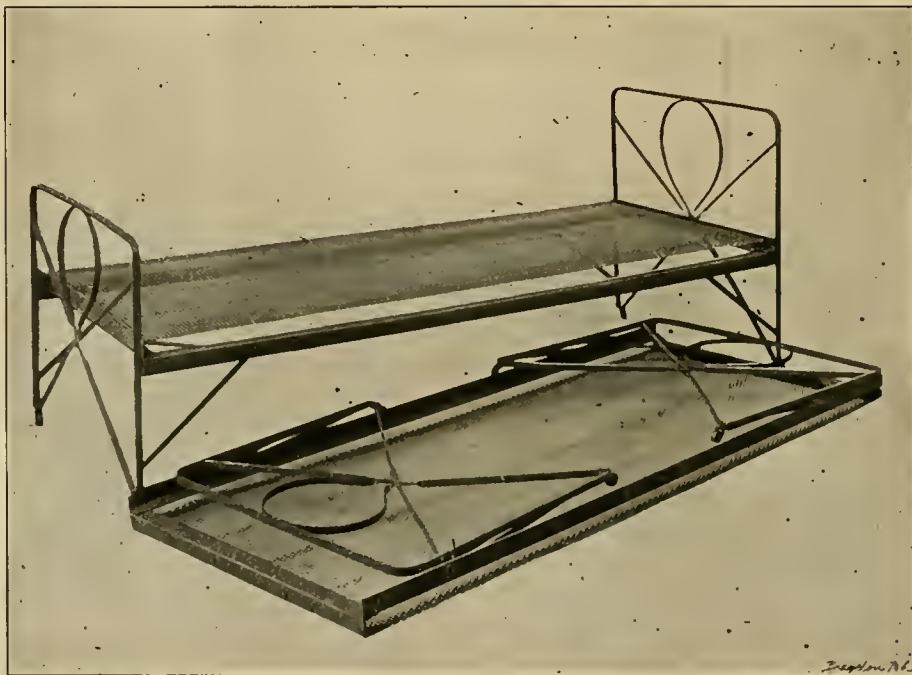

This bed is constructed of steel and iron. The attachment which connects the rail with the pillar, is malleable iron. It has attached a first-class woven wire fabric. Size, 3-0 x 6-3.

The fabric stands, when the bed is set up, 25 inches from the floor.

It is a very strongly constructed and rigid bed and is specially adapted for hospital use.

Prices will be furnished on application.

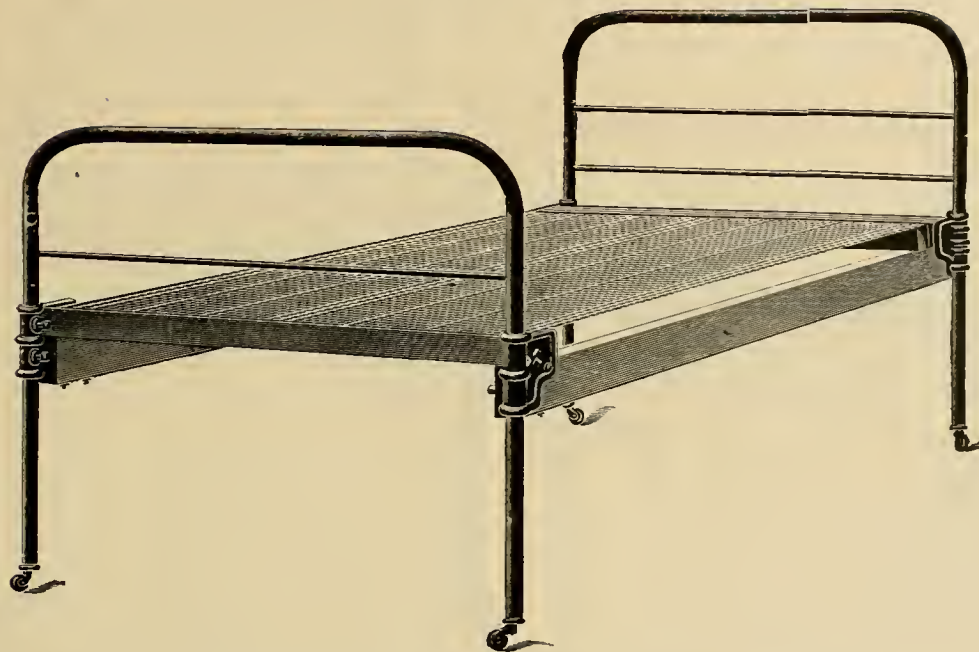

### The Dexter Folding Cot.

The Dexter Folding Cot is all metal and very durable. The side rails of angle and ends of flat steel. It has a woven fabric attached, and folds as shown in cut.

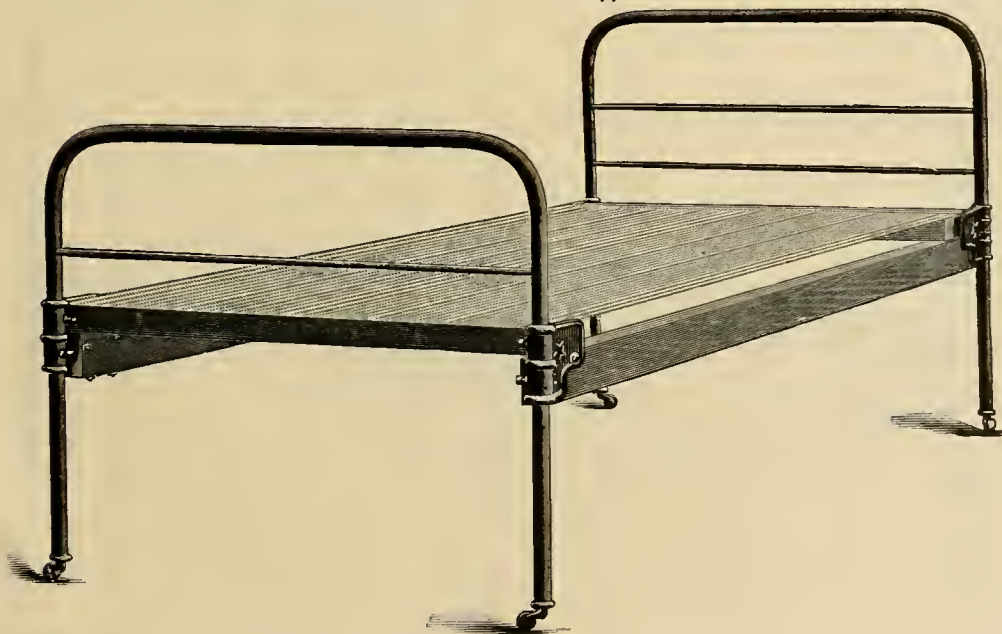

For Price, See Page 83.

### Institution Beds.

**No. 8 Bed.** Frame, hard maple ; head and foot, iron pipe ; fabric, double weave corded ; pillar attachments malleable ; painted dark color. Sizes, 2-6 x 6-3 and 3-0 x 6-3.

Prices will be furnished on application.

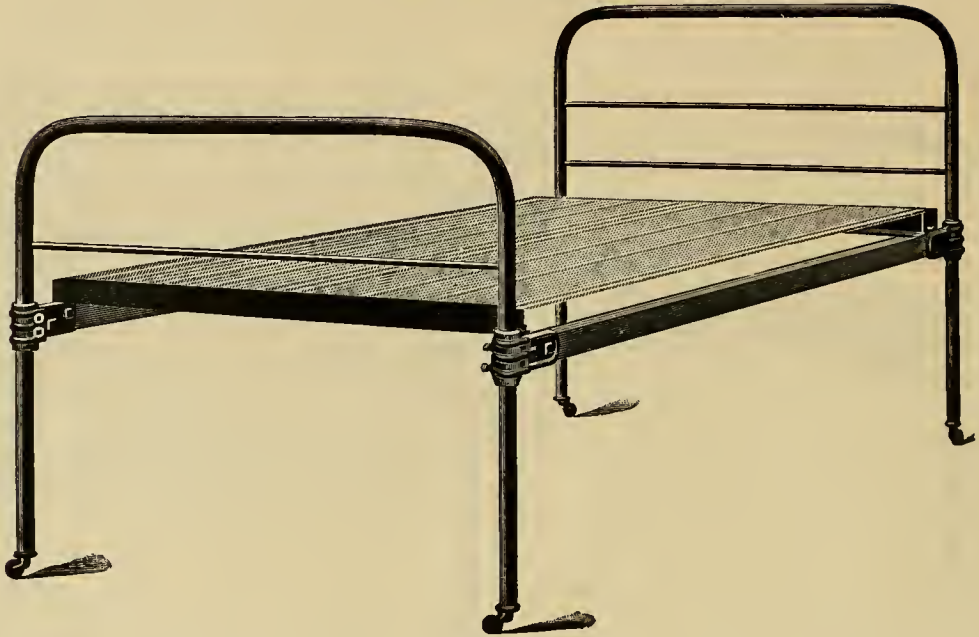

**No. 21 Bed.** Frame, hard maple ; head and foot, iron pipe ; fabric, double weave corded ; pillar attachments, malleable ; double end bar stretcher ; painted dark color.

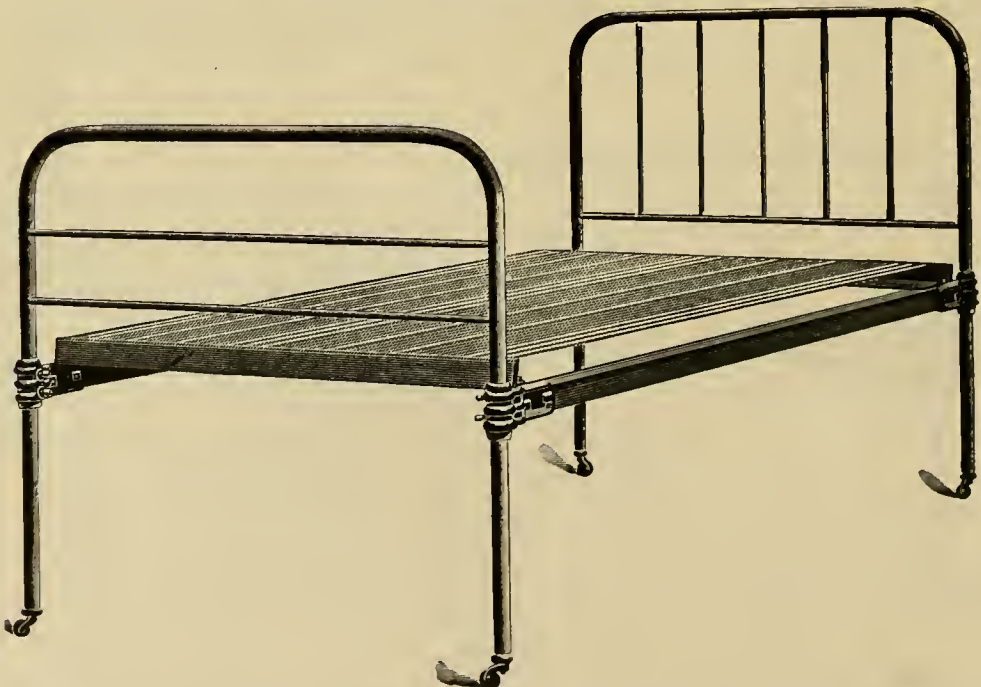

Sizes, 2-6 x 6-3 and 3-0 x 6-3.

Prices will be furnished upon application.

## Institution Beds.

**No. 22½ Bed.** Frame, angle steel ; head and foot, iron pipe ; fabric, double weave, corded ; pillar attachments, malleable ; painted dark color. Sizes, 2-6 x 6-3 and 3-0 x 6-3.  
 Prices will be furnished on application.

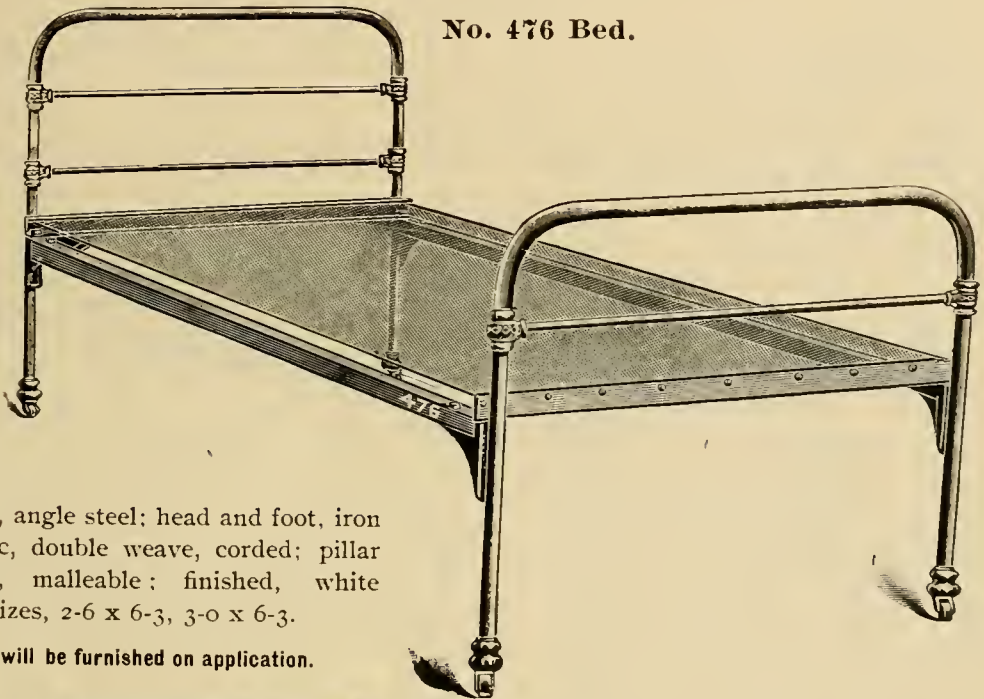

**No. 22 Bed.** Frame, angle steel ; head and foot, iron pipe ; fabric, double weave, corded ; pillar attachments, malleable ; double end stretcher device ; painted dark color.  
 Sizes, 2-6 x 6-3 and 3-0 x 6-3. Prices will be furnished on application.
